Fall River COVID-19 Update
267 Confirmed Positive Cases in Fall River

(Fall River, MA- April 22, 2020)- Due to similar lab reporting issues that other cities and towns have encountered, the City of Fall River now has 267 confirmed positive cases of COVID-19, with 124 cases that have cleared isolation. The Fall River Health Department is in contact with the individuals who have tested positive as well as their contacts. These individuals are in isolation and quarantine.

We continue to encourage residents to practice social distancing. This means keeping a distance of 6ft between individuals. Continue to wash your hands on a regular basis, clean and disinfect frequently touched surfaces, and stay home as much as possible, especially when you are sick, and wear a face covering when out in public. These measures will help to limit the spread of COVID-19.

Information regarding the City of Fall River’s response to COVID-19 can be found on the City’s website at https://www.fallriverma.org/department/corona-virus-information/. The website is updated daily. Information can also be found on the City’s Facebook page. For information regarding services available in Fall River, please visit the United Way COVID-19 Information page.
